AceCTF — Fall of 2022

OxDolphin Feb 27, 2025

👤 💬 ↺ 📌 🎥 📄 ⋮

Hello guys, this is Mousa AKA OxDolphin. Now we will solve the OSINT challenge of Fall 2022 in AceCTF together for the sake of learning together. Let's go.

Challenge

...

So, from the attached photo we can deduce it is all in the domain. Therefore, I checked the DNS records, specifically the TXT records. There are 2 ways:

1. <https://dnsdumpster.com/>
2. nslookup -type=TXT "domain name"

Both ways led to the solution as you see in the next 2 photos:

dns recon & research, find & lookup dns records

"v=spf1 include:_spf.mx.cloudflare.net ~all"

"ACECTF(ybu_g87_7h3_73x7)"

Download xlsx

map generated by dnsdumpster.com

DNSDumpster.com is a FREE domain research tool that can discover hosts related to a domain. Finding visible hosts from the attackers perspective is an important part of the security assessment process.

Open Source Intelligence for Networks

Attack

The ability to quickly identify the attack surface is essential. Whether you are penetration testing or chasing bug bounties.

Defend

Network defenders benefit from passive reconnaissance in a number of ways. From threat analysis to cyber security strategy.

Learn

Understanding network based OSINT helps information technologists to better operate, assess and manage the network.

We have been featured in well known cyber security conferences and resources.

dns dumpster

Here is the flag

the same flag as well in cmd

Validated

...

Thank you. Happy to share the first but not the last writeup.
