Hello guys, this is Mousa AKA 0xDolphin. I took part with my amazing team Ast3roids in v1t CTF 2025, proudly achieving rank #52/ 1237 teams in my first official CTF after my comeback. I am very happy that we were in the top 5%. I want to share writeups and analysis for some good challenges in MISC and FORENSICS.

My friend made this team comp but I feel there's a little weird, maybe a message hidden inside? Can you figure it out? 😊

This reminded me of the good old days playing TFT with my friends during the quarantine in 2020.

So, we have here a team comp. Doing some research, i found 3 websites which are basically analytics platforms for LoL. I personally used some of them when I was in the 12th grade xD

However, this weird code `0201418e16417719517d16801c15aTFTSet15`

indicates this is a team comp built by a team builder. There was a platform which stood out for me for its team builder: Meta TFT.

homepage

ok, go to the Team Builder page and try to load the comp.

then Boom!

Do you see the flag? hint: it has the theme of the CTF ;)
